PROFESSIONAL SUMMARY

Senior React Developer and Team Lead with 6+ years of experience building SaaS and marketplace products with React.js, Next.js, TypeScript and Node.js, plus hands-on Flutter experience. Currently leading a development team at AITC International that delivers web and mobile products, including the Mercury 360 AI HR platform, the Annapurna Art international marketplace and the AITC Homes apartment management app. Also builds and runs independent products, including Tream, a full-stack platform of games for TikTok LIVE, and the open-source SEOAnything npm package. Focused on clean architecture, performance and mentoring developers.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES2023), Tailwind CSS, Angular, HTML5, CSS3

TanStack & State: TanStack Query, TanStack Router, TanStack Start, TanStack Table, TanStack Form, Redux, Zustand

Backend: Node.js, NestJS, Hono, Express, REST APIs, WebSockets, PostgreSQL, MongoDB

AI: Vercel AI SDK, AI chat & assistants, Streaming UIs

Mobile: React Native, Flutter, Dart

Practices & Tools: Git, Vercel, Progressive Web Apps, System Design, Performance Optimization, Technical SEO, UI/UX, Agile / Scrum, Code Review, Mentoring

PROFESSIONAL EXPERIENCE

Team Lead, AITC International

Bhaktapur, Nepal | Full-time | Oct 2022 – Present

- Lead architecture and delivery of React.js / Next.js web apps and Node.js APIs
- Built the Next.js front end for the Mercury 360 AI ecosystem: the main website and the Mercury Jobs candidate portal, alongside Mercury Recruit
- Worked on Mercury ChatBot, a LiveChat-style website chat product that answers visitors, captures enquiries and hands off to a human agent
- Built Annapurna Art, an international art marketplace with artist onboarding, curated collections, virtual exhibitions and a full admin panel
- Contributed to AITC Homes, an apartment and visitor management system for housing societies: built on the React web admin and assisted on the Flutter app
- Mentor developers, run code reviews and coordinate with cross-functional teams

Creator & Developer, Independent products

Kathmandu, Nepal | Self-employed | Sep 2026 – Present

- Tream: designed and built full stack, eight games for TikTok LIVE that viewers play by typing in chat, with subscriptions and a free trial
- SEOAnything: an open-source npm package that gives AI coding agents nine SEO and GEO skills plus a CLI auditor
- NepalPremierLeague.site: NPL live scores, schedule and points table, read by 400+ cricket fans a day
- Dashain Games: nine traditional Nepali card, board and dice games, free and offline-ready in the browser

Admin, Routine of Nepal Technology

Kathmandu, Nepal | Full-time | Jan 2022 – Present

Technology and social media administration.

Frontend Developer, Cagtu Nepal

Kathmandu, Nepal | Full-time | Jun 2021 – Jun 2022

- Designed and developed a service booking platform using Next.js and React.js
- Built complex UI components with state management using Redux and Zustand
- Implemented performance optimizations like code splitting, lazy loading and memoization

React.js Instructor, Coursly Nepal

Kathmandu, Nepal | Part-time | Feb 2021 – Aug 2021

- Taught HTML, CSS and JavaScript fundamentals through advanced React.js
- Conducted hands-on React.js sessions, assignments and grading
- Created an inclusive, collaborative learning environment

Back End Developer, Swivt

Hong Kong (Remote) | Full-time | Jan 2020 – Feb 2021

- Developed a real-time bidding system using Node.js
- Collaborated on Bhavika Store, an online Indian grocery store for customers in Hong Kong
- Communicated directly with international clients to meet project goals
